Last Day on Earth: Survival Mod APK Game is an online multiplayer zombie game for Android devices that combines action and strategy with elements from RPG games Ever since George A. Romero created the modern zombies that we all know nowadays, the latter have starred in loads of comics, movies, and video games. And in this last sector, we've seen from the cutest and funniest ones in Plants vs- Zombies, to those that can really scare the life out of you, as is the case of this Last Day on Earth: Survival Mod APK Here we'll be able to play an entertaining game that combines action and strategy and in which your goal is the usual one in this kind of title: survive whilst you destroy as many zombies as possible. We can't say that it's an original game but at least it's very entertaining. Especially because it comes along as an online multiplayer game in which there are even more possibilities as the game becomes totally unforeseeable. An RPG zombie game full of action and strategy Once you download its APK you'll soon see that the game isn't only about wiping out random zombies as we'll also have to take into account a series of aspects such as the construction of weapons. You'll have to combine them to create the most lethal ones to be able to wipe out undead or hunt for food. Develop your own weapons. Explore scenarios such as abandoned military bases or survivor camps looking for resources. Join a clan of players and defend yourself in teams to have more chances of survival. Develop joint strategies to wage war against zombies in a more efficient manner. Talk to other players by chat. Overcome different troubles such as wild animals, hunger, thirst or coldness. Game Features : Create your character and look around: near your shelter, there are a lot of locations with different danger levels. From the resources collected here you can craft everything necessary for survival: from a house and clothes to weapons and an all-terrain vehicle. As your level grows, hundreds of useful recipes and blueprints will become available to you. First off, build and enhance the walls of your house, learn new skills, modify weapons, and discover all the joys of the gaming process. Pets are an islet of love and friendship in the world of the zombie apocalypse. Joyful huskies and smart shepherd dogs will be happy to accompany you in raids, and while you're about it, help you carry out loot from hard-to-reach places. Assemble a fast Chopper, an ATV, or a motorboat and get access to remote locations on the map. You don't get the rarest resources for complex blueprints and unique quests for nothing. If there's a mechanic sleeping inside of you, it's just the time to wake him up! If you like cooperative play, visit the city in the Crater. There you'll meet loyal companions and find out what you're worth in PvP. Join a clan, play with other players, feel the unity of a real pack! Survivor (if you have read this far, I can call you that), an arsenal of cold weapons and firearms that would make even a seasoned hardcore player envy is at your service. Here are bats, miniguns, M16, good-old AK-47, Mortar, C4, and too much more to list, better see it for yourself. Forests, Police Station, Spooky Farm, Port, and Bunkers packed with zombies, raiders, and other random characters. Always be ready to use force or flee. Anything goes, when it comes to survival! Technical improvements and bug fixes. - Item Duplication (Split an Item to get more) - Free Crafting (Craft without required items) - Free Building (Build without required items) - No Building Requirements - Free Upgrading (Upgrade without required items) - Infinite Weapon Durability - Infinite Armor Durability - Unlimited Skill Points (Use skill to increase) - New Fast travel on the map - New When walking your energy is not wasted - First aid kits not in the slot endless Esperando permisoPermitir el acceso al micrófono para activar la búsqueda por voz
